

PRESS RELEASE ON PROJECT START

Improving the availability of medical care and screening tests through the cross-border cooperation of small settlements

HEALTH4ALL

The Local Governments of Ács and Madar develop health and social services, as well as implement real estate development in the framework of SKHU/1601/4.1/056 tender.

Amount of the support: EUR 169,818.1 Duration of the project: 2017.09.01-2019.08.31.

Within the framework of the project, the professional knowledge of institutional experts will be expanded, in which the experts of health and social sphere become acquainted with best practices of another country during a study trip, they participate in accredited training to promote social cohesion and health care of the marginalized population, as well as they organize cross-border workshops, where the professional supervision is assisted by a psychologist.

The cross border knowledge transfer between the institutional experts is an important work package in the project, in which Madar introduces group management techniques and Ács presents the health visitor and child welfare services and the operation of child protection warning system to the colleagues of neighboring country.

During development of health and social services, the partners organize professional interactive events for the local population, especially for the disadvantaged people 4 times in Hungary. Besides, members of the target group can access various health and social services.

The dissolution of the social exclusion of marginalized groups is a stressed task in the area, so the experts assist finding employment on the labour market with trainings, improve conditions for job retention, and provide professional help in business establishment.

The development of of the social and health infrastructure is implemented by the participating local governments: at Ács a community house and a medical room will be established, and at Madar the medical office will be renovated - thanks to the support.
