

## PRESS RELEASE ON PROJECT CLOSING

Improving the availability of medical care and screening tests through the cross-border cooperation of small settlements

HEALTH4ALL

**The Local Governments of Ács and Madar developed health and social services, as well as implemented real estate development and equipment procurements in the framework of SKHU/1601/4.1/056 tender.**

**Amount of the support: EUR 169,818.1      Duration of the project: 01.09.2017-32.08.2019.**

Within the framework of the project, the professional knowledge of institutional experts was expanded, in which the experts of health and social sphere became acquainted with best practices of another country during a study trip, they participated in accredited trainings to promote social cohesion and health care of the marginalized population, as well as they organized cross-border workshops, where the professional supervision was assisted by a psychologist.

The cross border knowledge transfer between the institutional experts was an important work package in the project, in which Madar introduced group management techniques and Ács presented the health visitor and child welfare services and the operation of child protection warning system to the colleagues of the neighboring country.

During development of health and social services, the partners organized professional interactive events for the local population, especially for the disadvantaged people 5 times in Hungary.

Project is financed by the European Regional Development Fund

The content of this press release does not necessarily represent the official position of the European Union.

Besides, members of the target group could access various health and social services.

The dissolution of the social exclusion of marginalized groups is a stressed task in the area, so the experts assisted finding employment on the labour market with trainings, improved conditions for job retention, and provided professional help in business establishment.

The development of the social and health infrastructure was implemented by the participating local governments: at Ács the roof of a social building was renovated and different health care and social equipments were purchased, and at Madar the medical office was renovated - thanks to the support.
